INVENTORY OF AGRICULTURAL RESEARCH FY 1977

VOLUME II TABLE II, III AND IV

UNITED STATES DEPARTMENT OF AGRICULTURE SCIENCE AND EDUCATION ADMINISTRATION

INVENTORY OF AGRICULTURAL RESEARCH

Volume II (Tables II, III, IV)

Funding and scientist year data for USDA Research Agencies, State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions - by Commodity or Resource and by the Research Problem Area.

FISCAL YEAR 1977

This report was compiled from data supplied to the Current Research Information System (CRIS) by USDA Research Agenices, State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions

Issued by

Technical Information Systems

INTRODUCTION

The Inventory of Agricultural Research is a collection of statistical tables compiled annually since 1966, on research conducted by the USDA, State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions. The tables were designed to assist persons who carry out the "joint research program planning, evaluation, and coordination" recommended in the long-range study. A National Program of Research for Agriculture, published in October 1966. Input data is provided to the Current Research Information System (CRIS) by USDA Research Agencies on Forms AD-416, AD-417, and AD-418, and by State Agricultural Experiment Stations and other Institutions on Forms AD-416, AD-417, and AD-419. (See Table of Contents)

The Inventory is composed of five tables published in three volumes. Volume I (Tables I-A and I-B) reports scientist years and amount of funds by each performing organization, by designated Research Problem Area (RPA) and Commodity; I-B Tables show total research for each Research Problem Area.

Volume II includes Tables in the II, III, and IV series. Tables in the II series show scientist years and funds for State Agricultural Experiment Stations, Forestry Schools, Other Cooperating Institutions, and USDA agencies. Tables in the III series show funding data for USDA research by source of funds. Tables in the IV series show funding data for State stations and other non-Federal institutions by source of funds.

The II-B, III-B, and IV-B Tables show a breakdown of the data by the commodity classification used in the Long-Range Study. The II-D, III-D, and IV-D Tables show data for each of the 98 Research Problem Areas (RPA) used in the Long-Range Study. The II-E, III-E, and IV-E Tables provide summaries of funds and scientist years by agency or station.

Table V in Volume III shows scientist years by Research Program Group (RPG) and Research Program (RP). RP's and RPG's are made up of unique combinations determined by type of research (Agricultural or Forestry), commodity, and Research Problem Area (RPA) classification.

Funds appearing in Volumes I and II are gross figures. This means that funds not allocated to specific research projects but considered to be an integral part of the cost of doing research are prorated to the appropriate research projects. The nature and amount of funds not allocated to projects varies among the Stations and USDA agencies. It usually includes administration, supervision, and personnel and financial services. It may include publications and statistical services, rent, operation of research farms, and other expenditures that relate to several or all projects. Prior to Fiscal Year 1972 Tables III and IV in Volume II reflected net funds.

Research Work Unit/Project Classification - Listings of the appropriate classification categories are included in each of the volumes. More complete descriptions of classification can be found in the "Manual of Classification of Agricultural and Forestry Research" available from the Current Research Information System, Technical Information Systems, Science and Education Administration, U.S. Department of Agriculture.

Classification on individual Research Work Unit/Projects are provided on Form AD-417. Many inputs used only one line. For example, a project carried out by an entomologist on control of cotton insects would be coded:

```
"Activity" - 4500 (Insect Control), "Commodity" - 2100 (Cotton) "Field of Science" - 0412 (Entomology), "Problem Area" - 207 (Insect pests of Field Crops) - 100%
```

Same inputs (projects) could not be classified on a single classification "line." For example, a project carried out by a geneticist on breeding corn for disease resistance and improved yield would use two classification lines. If, in the judgment of the person preparing the input form, three-fourths of the emphasis was on disease resistance and one-fourth on yield, the lines would be:

```
"Activity" - 4600 (Disease control), "Commodity"-1400 (Corn) "Field of Science" - 0512 (Genetics), "Problem Area" - 208 (Control of disease of field crops) - 75%
```

```
"Activity" - 5000 (Biol. efficiency), "Commodity" - 1400 (Corn). "Field of Science" - 0512 (Genetics), "Problem Area" - 307 (Improvement of biological efficiency of field crops) - 25%
```

In the Problem Area tabulations, 75% of the scientist years and of the funds reported for this project would be aggregated with other projects in the Problem Area, "Control of diseases of field crops," and 25% would be aggregated with other projects in the Problem Area. "Improvement of biological efficiency of field crops." In the Commodity tabulations, 100% of this project would be in "corn."

TABLE II

Column 1 includes abbreviations for the Commodity and Problem Area Classifications. See the <u>Manual of Classification of Agricultural and Forestry Research</u>, Revision III, January 1978, for a more detailed description of the Commodity and Problem Area classification.

"NO OF PROJ" column 2, gives the number of projects in a particular classification category. Projects with more than one line of classification (as explained in the last two paragraphs on page vi) may be tabulated in more than one category.

"SCIENTIST YEARS" column 3, includes for SAES, Forestry Schools, and Other Cooperating Institutions all research workers with a rank of Assistant Professor or above. It excludes graduate assistants and research administrators. For staff members engaged in research and teaching (or other non-research activities), only the full-time equivalent of the portion of time devoted to research is included. A count of the different individuals engaged in the program would be greater than the scientist-years reported. For USDA agencies, scientist-years include research workers whose rating is GS-11 or above. It does not include those with GS-7 or GS-9 ratings or those engaged in research administration. Scientists who start work after October of the Fiscal Year, or whose employment is terminated before September 30, are reported for only that portion of the year which represents actual employment.

"REG FED APPR (CSRS ADMSTRD)" column 4, means Regular Federal Appropriations (including those administered by the Cooperative State Research Service). For USDA research agencies, including CSRS in the case of Special Grants, the amounts reported are the sums of the amounts in Fields 101, 104, 105, 106 and 107 of Form AD-418 plus the amount in Field 19 of Form AD-416 for grants and contracts in the year of obligation. The second portion of this heading, "CSRS ADMSTRD," applies only to Federal funds made available by CSRS to SAES, Forestry Schools, and Other Cooperating Institutions. For these institutions, the amounts reported are the sums of the amounts in Fields 201, 202, 203 and 205 of Form AD-419.

"TOTAL FUNDS" column 5, includes for USDA all funds under "REG FED APPR" plus "Other Federal Research Funds" as reported on Form AD-418 (excepting AID funds and PL-480 funds) plus "Non-Federal Research Funds" as reported on Form AD-418. For SAES, Forestry Schools, and Other Cooperating Institutions "TOTAL FUNDS" includes "REG FED APPR" plus "Other Federal Research Funds" excepting AID funds) as reported on Form AD-419 plus "Non-Federal Research Funds" as reported on Form AD-419.

"USDA CON GR CA WITH SAES," columns 6 and 7, refer to contracts, grants, and cooperative agreements under which the USDA uses Federally appropriated funds to State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions for the performance of specific research tasks. They include CSRS "Special Grants" but not grants from other CSRSadministered funds. Scientist-years and fund data reported in these columns are also included in columns 3 through 5. State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions report expenditures of these funds in Fields 204 and 219 of Form AD-419. Scientist-years supported by these funds are not reported separately for SAES, et al. in column 6 but are included in column 3. USDA agencies treat each contract, grant, or cooperative agreement with a State station as a separate work unit or project. The amounts included in column 7 by USDA are reported in Field 19 of Form AD-416. This field shows the expected scientist-years to be "purchases," usually over a multi-year period, with the funds reported as obligated.

In the National Summary for USDA, SAES, Forestry Schools, and Other Cooperating Institutions, all data have been adjusted to eliminate double counting of the scientists and funds involved in USDA Contracts, Grants, and Cooperative Agreements with the SAES, et al. This is done for scientist years by adding USDA amounts in column 3 to the corresponding amounts for SAES, et al. and subtracting the USDA amounts in column 6. This is done for funds by adding USDA amounts in column 5 to the corresponding amounts for SAES, et al. and subtracting the USDA amounts in column 7.

TABLE III

Table III summarizes data supplied by USDA research agencies on Forms AD-416 and AD-417 and AD-418.

Columns 1 and 2 are the same as those columns in Table II.

Column 3, "SYS" is the number of scientist years (Field 141 of Form AD-418 and Field 95 of Form AD-416 in the case of Contracts, Grants, and Cooperative Agreements with SAES).

Columns 4, 5 and 6 "STAFF-I.H. SUPPORT YEARS" give the Federally employed (In-House) staff support for research in years of effort for these categories of support personnel, i.e. Professional, Technical and Other (Fields 142, 143 and 144 of Form AD-418). For ARS, entries in the column entitled "Other" represent a summation of Fields 142, 143 and 144.

Columns 7 - 17, inclusive, "FUNDS BY SOURCE - IN THOUSANDS OF DOLLARS EXCLUSIVE OF PL-480 AND AID FUNDS" involve rounding each datum to the nearest \$1,000 and because of this the items in a column may not add exactly to the total shown. Please note that funds shown are \underline{Gross} obligations.

Column 7, "REG IN HOUSE" includes regular appropriations used for inhouse research (Field 101 of Form AD-418).

Column 8, "C G CA SAES" includes funds obligated during the year from regular appropriations in contracts, grants, and cooperative agreements with State Experiment Stations (Field 19 of Form AD-416).

Column 9, "OTHER CN GT" includes funds obligated during the year from regular appropriations in contracts and grants with research organizations other than those included in Column 8 (Field 19 of Form AD-416).

Columns 10 and 11, "SP FD 015" and "SP FD 010" include obligations for subprofessional help on research programs based on two special funds available to the Agricultural Research Service. (See Fields 104 and 105 of Form AD-418).

Column 12, "WHITT ACT" includes funds received by the Forest Service under provisions of the Whitten Act (Field 106 of Form AD-418).

Column 13, "OTHER USDA" includes any other USDA funds appropriated for research which are not identified with Fields 101 to 106, inclusive, of Form AD-418 (Reported in Field 107 of Form AD-418).

Column 14, "TOTAL USDA APPR" is a total of the amounts reported in columns 7, 8, 9, 10, 11, 12 and 13.

Column 15, "OTHER FED FUND" includes all funds from Federal sources other than USDA research appropriations, excepting funds transferred from the Agency for International Development (AID funds) and PL-480 funds (Fields 310-316), inclusive and Field 318 of Form AD-418.

Column 16, "NON-FED FUND" includes all funds made available to the Department of research by non-Federal agencies (Field 133 of Form AD-418).

Column 17, "TOTAL" is a summation of all funds reported in columns 14, 15 and 16.

TABLE IV

Table IV summarizes data supplied by the 55 State Agricultural Experiment Stations, 15 Forestry Schools, and 19 Other Cooperating Institutions on Forms AD-417 and AD-419.

Included in the summaries for the Northeast Region are the research programs of all SAES, Forestry Schools, and Other Cooperating Institutions in: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia.

Included in the summaries for the Southern Region are the research programs of all SAES, cooperating Forestry Schools, and Other Cooperating Institutions in: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, and the Virgin Islands.

Included in the summaries for the North Central Region are the research programs of all SAES, cooperating Forestry Schools, and Other Cooperating Institutions in: Alaska, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

Included in the summaries for the Western Region are the research programs of all SAES, cooperating Forestry Schools, and other Cooperating Institutions in: Arizona, California, Colorado, Guam, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

Columns 1 and 2 are the same as those columns in Table II.

Column 3, "SYS" is the number of scientist years (Field 241 of Form AD-419).

Columns 4, 5 and 6, "STAFF SUPPORT YEARS" give the non-Federally employed staff support for research in years of effort for three categories of support personnel, i.e. Professional, Technical and Other (Fields 242, 243 and 244 of Form AD-419).

Columns 7 - 19, inclusive, "FUNDS BY SOURCE - IN THOUSANDS OF DOLLARS" involve rounding each datum to the nearest \$1,000 and, because of this, items in a column may not add exactly to the total shown.

Column 7, "HATH" includes obligations of formula grant funds received by SAES from Federal appropriations made under provisions of the Hatch Act (Field 201 of Form AD-419).

Column 8,"RRF" includes obligations of regional research funds received by SAES from Hatch Act appropriations (Field 202 of Form AD-419).

Column 9, "MCIN STEN" includes obligations of funds received by SAES and Forestry Schools under provisions of the McIntire-Stennis Act (Field 203 of Form AD-419).

- Column 11, "OTH CSRS" includes obligations of funds received by SAES, Forestry Schools, and Other Cooperating Institutions from any sources other than Hatch, RRF, McIntire-Stennis, or basic research grant appropriations (Field 205 of Form AD-419).
- Column 12, "TOT CSRS" includes obligations of funds received by SAES et al. from Federal appropriations made to CSRS. It is a total of the amounts reported in columns 7, 8, 9, 10 and 11.
- Column 13, "USDA CGCA" includes obligations of funds received by SAES et al. from contracts, grants, and cooperative agreements with the research performing agencies of the USDA. This includes funds received under CSRS Special Grant (Field 219 of Form AD-419).
- Column 14, "OTHER FED" includes obligations of funds received by SAES et al. from contracts, grants, and cooperative agreements with Federal agencies other than the USDA Field 332 minus Fields 219 and 308 of Form AD-419).
- Column 15, "STATE APPRO" includes obligations of funds received by SAES et al. from State appropriations (Field 220 of Form AD-419).
- Column 16, "PROD SALES" includes obligations of funds received by SAES et al. from sales of products (Field 221 of Form AD-419).
- Column 17, "INDUSTRY" includes obligations of funds received by SAES et al. from industry that were expended in support of research (Field 222 of Form AD-419).
- Column 18, "OTHER" includes obligations of funds received by SAES, et al. from any other non-Federal sources (Field 223 of Form AD-419).
- Column 19, "TOTAL" includes all obligations of SAES et al. in support of research projects. It is a total of columns 12, 13, 14, 15, 16, 17 and 18.

#### CLASSIFICATION CODESHEET FOR REPORT OF AGRICULTURAL RESEARCH

# Commodity, Resource or Technology not Associated with Specific Commodities

#### Commodities or Resources

0100	Soil and land
0200	Water
0300	Watersheds and river basins
0400	Air and climate
0500	Recreation resources
0600	Trees, forests, and forest products (excluding edible tree nut crops (See 1015), and tung (See 2560))
0700	Range
0800	Fish, shellfish, game and fur-bearing animals and other wildlife and their habitats
0900	Citrus and subtropical fruit
1000	Deciduous and small fruits and edible tree nuts
1100	Potatoes
1200	Vegetables
1300	Ornamentals and turf
1400	Corn (includes Popcorn) - (For Sweetcorn see 1280)
1500	Grain sorghum
1600	Rice
1700	Wheat
1800	Other small grains
1900	Pasture
2000	Forage crops
2100	Cotton (including cottonseed for planting purposes)
2200	Cottonseed (for meal, oil, etc.)
2300	Soybeans
2400	Peanuts
2500	Other oilseed and oil crops (excluding cottonseed)
2600	Tobacco
2700	Sugar crops
2800	Miscellaneous and new crops
2900	Poultry
3000	Beef cattle
3100	Dairy cattle
3200	Swine
3300	Sheep and wool
3400	Other animals (See 0850 for fur-bearing animals)
3500	Bees and honey and other pollinating insects
3600	General purpose supplies - includes: machinery, equipment,
	fertilizers, feedstuffs, and pesticides
3700	Clothing and textiles
3800	Food (not readily associated with specific plants and
	animal products)
3900	Structures and facilities

#### Commodities or Resources

4000	People as individual workers, consumers and members of society
4100	The family and its members
4200	The farm as a business enterprise
4300	Communities, areas and regions, including counties and States and their institutions
4400	Agricultural economy of United States and sectors thereof, including interrelationships with the total economy
4500	Agricultural economy of foreign countries and sectors
	thereof, including interrelationships with the total economy
4600	Farmer cooperatives
4700	Marketing, processing and supply firms other than cooperatives
4800	Marketing systems and sectors thereof
6100	Weeds
6200	Seed research
6300	Biological cell systems
6400	Experimental design and statistical methods
6500	Invertebrates (including insects, mites, ticks, snails,
	slugs, and leaches)
6600	Microorganisms, viruses, etc.
6700	Plants
6800	Animals (vertebrates)
6900	Research on research management (not research management per se)
7000	Research equipment and technology (such as remote sensing)

#### RESEARCH PROBLEM AREAS (RPA's)

GOAL I: INSURE A STABLE AND PRODUCTIVE AGRICULTURE FOR THE

	FUTURE THROUGH WISE MANAGEMENT OF NATURAL RESOURCES
101 102 103 104 105	Appraisal of Soil Resources Soil, Plant, Water, Nutrient Relationships Management of Saline and Sodic Soils and Salinity Alternative Uses of Land Conservation and Efficient Use of Water
106 107 108	Efficient Drainage and Irrigation Systems and Facilities Watershed Protection and Management Economic and Legal Problems in Management of Water and
109 110	Watersheds Adaptation to Weather and Weather Modification Appraisal of Forest and Range Resources
111	Biology, Culture and Management of Forests and Timber-
112 113 114	Related Crops Improvement of Range Resources Remote Sensing Research on Management of Research
GOAL II	
	DISEASES AND OTHER HAZARDS
201 202	Control of Insects Affecting Forests Control of Diseases, Parasites and Nematodes Affecting Forests
203 204	Prevention and Control of Forest and Range Fires Control of Insects, Mites, Slugs, and Snails on Fruit and Vegetable Crops
205	Control of Diseases and Nematodes of Fruit and Vegetable Crops
206	Control of Weeds and Other Hazards to Fruit and Vegetable Crops
207	Control of Insects, Mites, Snails, and Slugs Affecting Field Crops and Range
208	Control of Diseases and Nematodes of Field Crops and Range
209	Control of Weeds and Other Hazards of Field Crops and Range
210	Control of Insects and External Parasites Affecting Livestock, Poultry, and Other Animals

GOAL	II: PROTECT FORESTS, CROPS AND LIVESTOCK FROM INSECTS, DISEASES AND OTHER HAZARDS (Continued)
211 212	Control of Diseases of Livestock, Poultry and Other Animals Control of Internal Parasites of Livestock, Poultry, and Other Animals
213	Protect Livestock, Poultry and Other Animals from Toxic Chemicals, Poisonous Plants, and Other Hazards
214	Protection of Plants, Animals, and Man from Harmful Effects of Pollution
GOAL	III: PRODUCE AN ADEQUATE SUPPLY OF FARM AND FOREST PRODUCTS AT DECREASING REAL PRODUCTION COSTS
301	Genetics and Breeding of Forest Trees
302	New and Improved Forest Engineering Systems
303	Economics of Timber Production
304	Improvement of Biological Efficiency of Fruit and Vegetable Crops
305	Mechanization of Fruit and Vegetable Crop Production
306	Production of Fruit and Vegetable Crop Production
307	Improvement of Biological Efficiency of Field Crops
308	Mechanization of Production of Field Crops
309	Production Management Systems for Field Crops
310	Reproductive Performance of Livestock, Poultry and Other Animals
311	Improvement of Biological Efficiency in Production of Livestock, Poultry and Other Animals
312	Environmental Stress in Production of Livestock, Poultry and Other Animals
313	Production Management Systems for Livestock, Poultry and Other Animals
314	Bees and Other Pollinating Insects
315	Improvement of Structures, Facilities and General Purpose Farm Supplies and Equipment
316	Farm Business Management
317	Mechanization and Structures Used in Production of Livestock, Poultry and Other Animals
318	Non-Commodity-Oriented Biological Technology and Biometry

	DEVELOPING NEW AND IMPROVED PRODUCTS AND PROCESSES AND ENHANCING PRODUCT QUALITY
401	New and Improved Forest Products
402	Production of Fruit and Vegetable Crops with Improved Acceptability
403	New and Improved Fruit and Vegetable Products and Byproducts
404	Quality Maintenance in Storing and Marketing Fruits and Vegetables
405	Production of Field Crops with Improved Acceptability
406	New and Improved Food Products from Field Crops
407	New and Improved Feed, Textile, and Industrial Products from Field Crops
408	Quality Maintenance in Storing and Marketing Field Crops
409	Production of Animal Products with Improved Acceptability
410	New and Improved Meat, Milk, Eggs, and Other Animal Food Products
411	New and Improved Non-Food Animal Products
412	Quality Maintenance in Marketing Animal Products
GOAL V	V: IMPROVE EFFICIENCY IN THE MARKETING SYSTEM
501	Improvement of Grades and Standard - Crop and Animal Products
502	Development of Markets and Efficient Marketing of Timber and Related Products
503	Efficiency in Marketing Agricultural Products and Production Inputs *
506	Supply, Demand and Price Analysis - Crop and Animal Products
507	Competitive Interrelationships in Agriculture
508	Development of Domestic Markets for Farm Products
509	Performance of Marketing Systems
510	Group Action and Market Power
511	Improvement in Agricultural Statistics
512	Improvement of Grades and Standard of Forest Products
513	Supply, Demand and Price Analysis - Forest Products
GOAL V	VI: EXPAND EXPORT MARKETS AND ASSIST DEVELOPING NATIONS
601	Foreign Market Development
602	Evaluation of Foreign Food Aid Programs
603	Technical Assistance to Developing Countries
604	Product Development and Marketing for Foreign Markets

GOAL IV: EXPAND THE DEMAND FOR FARM AND FOREST PRODUCTS BY

^{*} This RPA incorporates research formerly included under RPAs  $503,\ 504$  and 505.

	WELL-BEING OF THE AMERICAN PEOPLE
701	Insure Food Products Free of Toxic Residues from Agricultural Sources
702	Protect Food and Feed Supplies from Harmful Microorganisms and Naturally Occurring Toxins
703	Food Choices, Habits, and Consumption
704	Home and Commercial Food Service
705	Selection and Care of Clothing and Household Textiles
706	Control of Insect Pests of Man and His Belongings
707	Prevent Transmission of Animal Diseases and Parasites to Man
708	Human Nutrition
709	Reduction of Hazards to Health and Safety
GOAL VII	II: ASSIST RURAL AMERICANS TO IMPROVE THEIR LEVEL OF LIVING
801	Housing
802	Individual and Family Decision Making and Resource Use and Family Functioning
803	Causes of Poverty Among Rural Poeple
804	Improvement of Economic Potential of Rural People
805	Communication and Education Processes
806	Individual and Family Adjustment to Change
807	Structural Changes in Agriculture
808	Government Programs to Balance Farm Output and Market Demand
GOAL IX:	PROMOTE COMMUNITY IMPROVEMENT INCLUDING DEVELOPMENT OF BEAUTY, RECREATION, ENVIRONMENT, ECONOMIC OPPORTUNITY, AND PUBLIC SERVICES
901	Alleviation of Soil, Water and Air Pollution and Disposal of Wastes
902	Outdoor Recreation
903	Multiple Use Potential of Forest Land and Evaluation of Forestry Programs
904	Fish and Other Marine Life, Fur-Bearing Animals and Other Wildlife
905	Trees to Enhance Rural and Urban Environment
906	Culture and Protection of Ornamentals and Turf
907	Improved Income Opportunities in Rural Communities
908	Improvement of Rural Community Institutions and Services

GOAL VII: PROTECT CONSUMER HEALTH AND IMPROVE NUTRITION AND
